

# INVITATION

Dear Ms./Mr.

We would like to invite you to join us at GSMA's MWC Barcelona 2026, which will be held from March 2 to 5.

The age of intelligence is approaching fast. A future where AI agents will interconnect and act autonomously is unfolding before us, reinventing everything from mobile apps and smart homes to intelligent vehicles and industries.

These agents will need advanced connectivity everywhere – and an abundance of on-demand compute. Addressing these needs will present considerable challenges for the ICT industry, but also boundless opportunities.

At this year's MWC, Huawei will share our latest progress in value-driven networks and open intelligent infrastructure, alongside our future plans. We will also showcase the results of our exploration into the ongoing evolution of CT and intelligent upgrade of IT.

Come join us! In Barcelona, you can:

- See Huawei's latest products and solutions up close, experience our agent-oriented offerings, and discover new business opportunities.
- Be the first to hear groundbreaking announcements, gain industry insight, and stay ahead of the latest evolutions in network technology.
- Connect with industry experts, discuss cooperation opportunities, and learn more about how industries are making the most of technology to create real business value.

As always, thank you for your ongoing support, and we look forward to seeing you there.

Sincerely,

**Sabrina Meng**

Rotating Chairwoman  
Huawei Technologies Co., Ltd.

**Huawei booth:**  
Fira Gran Via, Hall 1, Booth 1H50
