

INVITATION

Dear XXX,

We would like to invite you to join us at GSMA's MWC Shanghai 2026, which will be held from June 24 to 26.

Intelligence has taken the world by storm, and the token economy is fueling new momentum in the industry.

This year, Huawei is focused on Advancing All Intelligence. We are making new breakthroughs in both connectivity and computing, and exploring new ways to supercharge services with AI.

At MWC Shanghai 2026, we will reveal our latest products, solutions, and best practices, all aimed at helping carriers thrive in the age of token monetization.

Join us in Shanghai to:

- Get hands-on with our cutting-edge networking technologies for upper 6 GHz band, high uplink, deterministic experience, millisecond-level computing power networks, and highly secure and resilient architecture
- See how AI is transforming services, including home assistants, personal assistants, video assistants, and one-hop AI home solutions
- Discover how our high-performance AI computing products and solutions are creating a new paradigm for AI infrastructure, and how open ecosystems are taking intelligent transformation to new heights

Midsummer in Shanghai is beautiful – the perfect time for us to come together and build a shared vision for an intelligent future.

As always, thanks for your support. And we hope to see you there!

David Wang

Rotating Chairman
Huawei Technologies Co., Ltd.
