

INVITATION

Dear Ms./Mr.

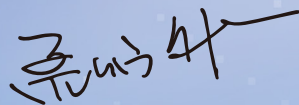

I would like to invite you to join us at MWC Shanghai 2023, hosted by GSMA in China. At this year's event, you'll have the opportunity to discuss industry roadmaps with global carriers, learn more about new business breakthroughs, and explore new areas for growth.

The intelligent world is coming – and fast. ICT technologies like 5G, cloud, and AI have put digital transformation on the fast track, both for companies that are going digital, and those that are helping them along the way. These trends are unleashing new growth potential and presenting carriers with a wealth of new opportunities.

Huawei is laser-focused on developing simplified, intelligent, and green ICT infrastructure to help empower innovation and build a resilient digital ecosystem. Together with carriers and partners worldwide, we have fostered a prosperous 5G industry. Going forward, we'd like to work with you to lay the groundwork for the next step forward – 5.5G.

Come join us – there's a lot we can explore together. Thank you for your ongoing support, and we look forward to seeing you in Shanghai.

Sincerely,

Sabrina Meng
