# Huawei ① Product Supplementary Cybersecurity Information (EUCC)

## The following links support the managing and monitoring of cybersecurity of the products:

| Products | EUCC level | Support for Huawei Products | End of Sale/End of Life Products | Vulnerabilities contact and process | Public vulnerability repositories |
|---|---|---|---|---|---|
| Huawei ATN Series Routers | Substantial | Guidelines | EOS | Huawei PSIRT | EUVD, with the search term "Huawei ATN" |

**Security support:**
• The validity period for an EUCC product certificate is established in accordance with the EUCC regulation  ((EU) 2024/482)  and is set at five years.
• Cybersecurity support for the Huawei ATN Series Routers will be aligned with the validity of the EUCC certificate.
• For further information on Huawei ATN Series Routers product maintenance and support, including the availability of cybersecurity related updates, can be discussed and agreed upon with the Huawei customer account manager. To reach Huawei customer account manager, you may contact support@huawei.com.

①: Huawei refers  to Huawei Technologies Co., Ltd.

Huawei Proprietary - Restricted Distribution
