4. Reason for Change

These antennas with “EasyRET 1.0” which the RET module cannot be replicable have reached their lifecycle of “end of marketing”, so orders for these antennas will no longer be accepted.

These antennas with “EasyRET 1.0” will be “end of marketing” without completely corresponding replacement, but the antennas with EasyRET2.0 which the RET module is replicable, “plug-and-play” and has indicator are recommended to be deployed for the same scenario. These antennas with EasyRET2.0 are available and have wider low band 690~960MHz, and high band 1710~2690MHz or 1695~2690MHz.

For example:
